

I am angry that Sinclair Broadcasting is going to force their stations to air this so called documentary, "Stolen Honor." A documentary is based on facts, not propaganda. This is an outright smear on Senator Kerry's military service and reputation. It is no more than a campaign ad for Bush and Cheney against John Kerry. I sincerely hope that you, the FCC, will change your minds and not allow this program to be shown. Comparing this tho Fahrenheit 911 is not fair, in that it is a movie you have to pay to see. It has not appeared on network television that is available to almost everyone. Freedom of speech does not mean that anyone can go on national television, twist the truth to suit their purpose and call it a "documentary."
